

To Upgrade the firmware on the T5050 the steps are as follows.

1. Insert USB device with the new firmware/software.
2. Press the Menu button on the remote.
3. Select Settings and press OK
4. Select Upgrade and press OK
5. USB/Card upgrade should be selected. Press ok
6. Select /udska1 and press OK
7. Select "rom DVB-T FOR D+D" file and Press OK

The Upgrade process will take approximately 2 minutes after which the receiver will restart.
