

Single Tuner Digital Terrestrial USB PVR Receiver\*  
Model Number: T1000n

- ✓ Full HD 1080p HDMI Output
- ✓ Single Tuner Digital Receiver
- ✓ USB Recording Support\*

The T1000n is a Freeview | HD Digital Terrestrial Receiver. With USB Recording Support, this single tuner receiver allows you to record programs to watch later. Record a channel while watching another, or record a program while watching a recording.\*

Providing high definition 1080p output via HDMI, the T1000n also provides component and A/V outputs for use in any type of installation. With easy tuning via fully automatic channel search and the MHEG-5 EPG so you can see whats on over the next 8 days.

\*Recording requires an External USB Device (Not Supplied). Channel selection is limited when recording, some combinations may not be available.

- Automatic Updates via OTA

This option can be used only if an Over The Air software update is broadcast via the UHF transmitter. The software will only be broadcast for a few weeks if a major update is needed.

- Games

The T1000n Unit comes with five games installed; Sudoku, Go Bang, Box Man, Tetris and Hit Rat.

- Media Player

With an External USB Device is connected, you can access and browse through your Music, Movie or Photo Files. Just select it, to start.

NOTE: Requires a USB Device to be connected. Some media file types may not play or be viewed.
