

How to tune in Prime TV

www.dishtv.co.nz

Follow these steps to reload Prime TV

1. Press the MENU button on your remote control. Select Installation and press OK
2. From the Installation menu select Program Satellites and Press OK
3. Press the down arrow to scroll down below DiSEqC settings
4. Select Program Type and press the right arrow until Free-to-Air is selected.
5. Press the Yellow button to start the scan process. This process will take 2-3 minutes to complete.
6. Once the scan process is completed you will be prompted to save the changes.
7. Press Ok to save the newly scanned channels.

You can organize the channels now if you wish.
