## DVR & Camera Connections

### Step 1 Video Display

Connect an HDMI cable from your Screen to the HDMI port on the back of your DVR1.

Connect a VGA cable from your Screen to the VGA port on the back of your DVR1.

Connect one end of the BNC cable to the connection on the back of the DVR1, labeled "Video Output", the other end connects to the BNC Input on your Screen.

Note: If your Screen doesn't have a BNC connection, it is still possible to connect your DVR via the BNC connection using a BNC-RCA adaptor (Not Supplied)

### Step 2 USB Mouse

Connect the USB Mouse to the USB port on the back of the DVR1.

Note: USB/ Ethernet input locations may vary.

### Step 3 Powering DVR

Connect the DVR1 to one of the multi-splitter ends. Connect the multi-splitter, single end, to the power adapter. Plug the Power Adapter into a Power Source. (A Surge Protector is Recommended. Not Included).

### Step 4 Camera

Connect BNC Plug labeled "DVR Side" to an open "Video In" slot/ connection in DVR1.

Connect the "DVR Side" of the Power Cable to the Splitter.

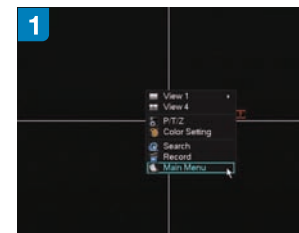

Connect BNC Plug labeled "Camera Side" to the Camera.

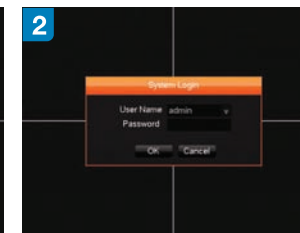

Connect the "Camera Side" of the Power Cable to the Camera.

Repeat Steps A-D for adding any additional cameras.

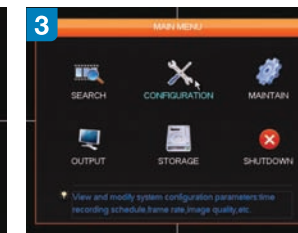

## Initial Setup

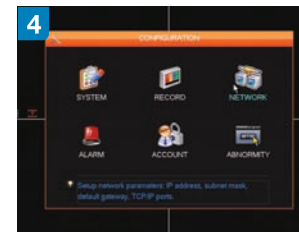

Right Click Anywhere on the Screen. Select **Main Menu**.

Admin is the default User Name. Enter the default **Password: 123456** (We recommend changing your Password for security purposes.) Click **OK**.

Select **Configuration**.

Select **Network**.

Make sure **DHCP** is selected. If not; please select.

Select the **P2P** tab at the top of the Screen.

Make sure Enable is **OPEN** and not CLOSED. Select **PING** if needed to connect the DVR1 to your network. State should read **ONLINE** to let you know you are online and ready to go.

**DO NOT LEAVE THIS PAGE.**

The QR code displayed will be used for the Mobile App Installation. Download the IMSeYe or Vss Mobile App from the respective App Store.

To Exit Menu, Right Click on Mouse.
