GENERAL INFORMATION

A Digital Satellite Receiver is a convenient product that allows you to view a variety of programs provided through satellite. This user's guide covers the installation of the DSR and the necessary steps to implement various features. This also explains special features available only in this DSR in detail, which will allow you to make full use of these feature.

Information confirmed in this document is subject to change. We reserves the right, without notice, to make change in product design or performances as progress in engineering or technology.

Main Features

- MPEG-2 digital & fully DVB-S compliant
- SCPC and MCPC receivable from C/Ku band satellite
- Automatic PAL/NTSC conversion
- 4000 channels TV and Radio programmable
- 32 different favorite groups selection
- On Screen Display with multi-language
- Fully support to 7 days Electronic Program Guide(EPG)
- Picture in Graphics(PIG) support
- 256 colors On Screen Display
- Automatic network search for newly added transponders
- DiSEqC 1.2 fully support, 13/18V, 0/22K, 0/12V LNB control
- Various channel editing function(favorite, move, lock, rename and sort)
- Parental control for channels
- Easy to use Menu System
- Software upgrades through RS232 port and Receiver to receiver
- Automatic turn on/off by Timer setting(multiple options)
- Subtitle support DVB EN300743 and EBU
- Teletext support DVB ETS300472 by VBI and OSD
- Automatic save for last channel
- Channel list can be sorted by alphabetic A-Z
- Up to 3X3 pictures on screen, only 1 active
- Video zoom function with 1/2/4/6/8/12/16 ratio
- Supprot FAT16/FAT32/FAT12
- Only list JPEG/BMP files
- Default 2 hours, user can setting the end time(Support subtitle)
- Based on size of HDD, 512M~8G size will reserve for time shifted recording(Support subtitle)
- Lock/Delete/Rename, Preview playback, Browse record files information
- Play/Pause/Stop/Step
- Fast Forward/Fast Backward 2/4/8/16/24, Slow Forward/Slow Backward 1/2, 1/4, 1/8, Jump to user selected time point
- 480i/p, 576i/p, upscale to 720p, 1080i
For Your Safety
- To avoid electric-shock hazards, do not open the cabinet, refer servicing to qualified personnel only.
- Keep the receiver away from flower vases, tubs, sinks, etc., in order to avoid damaging the equipment.

- Do not expose the receiver un-der the sunlight. And keep it away from the heat source.

- Do not block ventilation holes of the Receiver so that air can circulate freely.

- When the abnormal phenomenon occur, you should cut off the power immediately.
- Do not touch the receiver during thunder, since that might create electric-shock hazards.

- Switch the receiver off whenever it remains out of service for an extended period.
- Be sure to turn the Receiver off and disconnect the AC power cord before cleaning the Receiver surface. If the surface is dirty, wipe clean with a cloth which has been dipped in a weak soap-and-water solution and wrung out thoroughly, and then wipe again with a dry cloth.

GENERAL INFORMATION

Warning statement

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user authority to operate the equipment .

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-- Reorient or relocate the receiving antenna.

-- Increase the separation between the equipment and receiver.

-- Connect the equipment into an outlet on a circuit different
    from that to which the receiver is connected.

-- Consult the dealer or an experienced radio/TV technician for help.

General Operation

● Throughout this manual you will notice that the everyday operation of the receiver is based on a series of user friendly on screen display and menus. These menus will help you get the most from your receiver, guiding you through installation, channel organizing, viewing and many other functions.

● All function can be carried out using the buttons on the RCU, and some of the function can also be carried out using the buttons on the front panel.

● The receiver is easy to use, always at your command and adaptable for future advances.

● Please be aware that new software may change the functionality of the receiver.

● Should you experience any difficulties with the operation of your receiver, please consult the relevant section of this manual, including the Problem Shooting, or alternatively call your dealer or a customer service adviser.

RCU

| Key	Function
⏻	Turns power ON/OFF of the DSR

MENU INFORMATION

Main Menu

● Make sure that you have properly installed and connected the cables of the receiver well. If the receiver is the factory status or there is no program list, when power on, the Main Menu window will be displayed on the screen.

During the normal TV/Radio mode, press **MENU** key on the RCU to enter into the **Main Menu** window.

● This menu consists of 6 major main menus as follow.

- **Edit Channel**
- **Installation**
- **System Setup**
- **Tools**
- **Game**
- **REC**

● During the installation the **OK** key confirms a selection and **LIST** key shows Down List Box if the column has   mark. You can also use the numeric keys on the RCU to enter numeric value.

Use the **PR+**, **PR-** key to move upwards and downwards from one line to another line and use ⊿ ⊾ key to move from main menu to sub menu and move from left side to right side or versa.

Meantime, you want to escape the menu system, please press **MENU** or **EXIT** key on the RCU.

● If there is no program, you can not exit from the **Main Menu** window by pressing **MENU** or **EXIT** key. System will inform "No channel" and the following items turn grey.

Sub-menu	Turn grey when there is no program
Channel List	TV Channel List Radio Channel List Delete all
Installation	Antenna Connection Satellite List Antenna Setup Single Satellite Search Multi Satellite Search TP List
System	Language TV System Local Time Setting Timer Setting Parental Lock OSD Setting Favorite Other
Tools	Information Factory Setting Upgrade by USB Conditional CA USB
Game	Tetris Othello Sudoku
REC	Record Manager HHD Information HHD Format PVR Setting

1. Channel List

1. Press **OK** key or ⊾⁺ key to pop up the "Input Password" dialogue, you can not enter into the menu unless the correct password is inputted. The default password is **"0000"**.

2. Press **PR+, PR-** keys to move the cursor up or down.

3. Press **EXIT** key or ⊿ key to move the focus to the left menu.

**1.1 TV Channel List**

1. Press ⊿ ⊾ keys to select satellite.

2. Press **PR+, PR-** keys to select the program that you want to play, and then press **OK** key to view it in the small window. If move the **yellow** cursor to select up or down, you will see a gray line which indicates the playing program in the small window.

3. Press **FAV** key to move the FAV button upward. Select the program and press **OK** key to pop up the favourite group list. In the list, select the group that you want to add into and press **OK** key, and then you will find the favourite mark is displayed at the right side of the selected program.

Press **FAV** key again to exit from the fav mode, and you will find the FAV button return to the origin position.

4. Press **red** colour key to move the Lock button upward. Select the program and press **OK** key to mark this program with the Lock mark. You can cancel this mark by pressing **OK** key once more.

Press **red** colour key again to exit from the lock mode, and you will find the Lock button return to the origin position.

5. Press **green** colour key to move the Skip button upward. Select the program and press **OK** key to mark this program with the skip mark. You can cancel this mark by pressing **OK** key once more.

Press **green** colour key again to exit from the skip mode, and you will find the Skip button return to the origin position.

6. Press **yellow** colour key to move the Move button upward. Select the program and press **OK** key to mark this program with the move mark. Press **PR+, PR-** keys to move the cursor to the position where you want to locate and press **OK** key to confirm.

Press **yellow** colour key again to exit from the yellow mode, and you will find the yellow button return to the origin position.

7. Press **blue** colour key to enter into the **Edit channel** window.

i . Sort (red colour key)

Press **red** colour key to pop up the Sort drop-down list.

Name(A-Z): The ascending order, omitting the $ character, the number is ahead, then the capital letter, at last the lowercase.

**Name (Z-A):** The opposite order of the above Name (A-Z).

Free/Scramble: All FTA programs are listed ahead, while all scrambled programs are listed last.

Lock: all locked programs are listed at the last.

ii. Edit (green colour key)

Press green colour key to move the Edit button upward. Select the program and press **OK** key to pop up the **Rename** window.

In **Rename** window, press **red** colour key to switch between capital letter and lower letter; press **green** colour key to delete the character on the cursor; press ◁ ▷ keys to move the cursor left or right; press **numeric keys (0-9**) to input the character, please refer to the down table. Press **yellow** colour key to save and exit, or press **blue** key to cancel and exit.
Numeric keys	Press numeric key repeatedly, display in circle
1	.,*?!@1
2	ABC2
3	DEF3
4	GHI4
5	JKL5
6	MNO6
7	PQRS7
8	TUV8
9	WXYZ9
0	[space]_-0

If the name is empty, system will pop up a dialogue informing "Name" once **yellow** colour key is pressed. Press **OK** key to close this dialogue.

iii. Delete (blue colour key)

In **Delete** window, press **blue** colour key to move the Delete button upward. Select the program and press **OK** key to mark this program with the deletion mark. You can cancel this mark by pressing **OK** key again.

Press **EXIT** key to pop up the dialogue "Are you sure to save?". Select Yes button and press **OK** key to save, or select NO button and press **OK** key to exit without saving.
1.2 Radio Channel List

Sine the same operation as **1.1 TV Channel List**, here we don't explain any more.

1.3 Delete All

Move cursor to the **Delete All** item, and press **OK** Key to pop up the dialogue "Warning! Do you really want to delete all channel?".

Press **EXIT** key to pop up the dialogue "Are you sure to save?". Select Yes button and press **OK** key to save, or select NO button and press **OK** key to exit without saving.
2. Installation

1. Press **OK** key or ⊔̲ key to pop up the "Input Password" dialogue, you can not enter into the menu unless the correct password is inputted. The default password is "0000".
11

2. Press **PR+, PR-** keys to move the cursor up or down.

3. Press **EXIT** key or ⊿ key to move the focus to the left menu.

2.1 Antenna Connection

Press ⊿ ⊾ keys to select between Motor Antenna and Fixed Antenna.

2.2 Satellite List

1. Press **PR+, PR-** keys to select the satellite up or down. Press **OK** key to select and mark, and you can press **OK** key again to cancel the selection and the mark.

2. If there is no satellite, the red colour and blue colour keys will be invalid.

3. Press **red** colour key to pop up the **Edit Satellite** window. Press **PR+, PR-** keys to move cursor up or down.

Name: User numeric keys to change the name of the satellite, please refer to the **Edit Channel** Name.

Longitude: You can press ⊿ ⊾ keys to switch between east longitude and west longitude. After pressing **OK** key, you can use numeric keys to edit the longitude, press **EXIT** key or the **PR+, PR-** keys
to exit editing mode. The range of the longitude is from 1 to 180 degree. If beyond this range, system will inform you "out of range" when you press **yellow** colour key on the RCU. After setting, press **yellow** colour key to save and exit, while press blue colour key to exit without saving.

4. Press **green** colour key to pop up the **Add Satellite** window. Since the same operation as the above **Edit Satellite** window, here we don't explain any more.
5. Press **blue** colour key to pop up the dialogue "Are you sure to delete?". Select Yes button and press **OK** key to delete the selected satellite. You can cancel this operation by pressing **OK** key at the NO button.

2.3 Antenna Setup
Part A: **Fixed**

Suppose that you have selected Fixed Antenna in the **Antenna Connection** window.

1. Satellite: All selected satellites in the satellite list are displayed in this item.

Press ⊿ ⊾ keys to select the satellite in circle. Or press **OK** key to pop up the drop-down list, then select the desired satellite in the list and press **OK** key to confirm.

2. LNB Freq, Transponder, DiSEqC1.0, DiSEqC1.1: The same operation as the above.

3. 22K, 0/12V, Polarity: You can press ⊿ ⊾ keys to select in circle.

Part B: **Motor**

Suppose that you have selected Moter Antenna in the **Antenna Connection** window.

**1. LNB Type:** Select the proper LNB type.

2. Motor Type: Select between DiSEqC1.2 and USALS. If you select DiSEqC1.2, the following Local Longitude and Local Latitude items will turn grey.

3. Delete All: Press **OK** key to pop up the dialogue "Are you sure to clear set satellite position of this tuner?". Press **OK** key at the Yes button to clear all the memories about the position of the satellites that has connected to the current turner.

4. Motor Setting: Press OK key to the Motor Setting window.

Satellite: Press ⊿ ⊾ keys to select the satellite in circle. Or press OK key to pop up the drop-down list, then select the desired satellite in the list and press OK key to confirm.

Transponder: The same operation as the above.
Position No., & Save: The range is from 0 to 63. "0" delegates the original position. You can select the proper value when you has rotated the antenna.

Go to X: Press **OK** key to pop up the drop-down list, select the proper position (reference or from 1 to 63) to realize the selected position.

West <Save> East: Press ⊿ key to turn west, while press ⊾ key to turn east. Press **OK** key to pop up the dialogue "Are you sure to change this satellite's position?". Press **OK** key at the Yes button to save the current position, or press **OK** key at the No button to cancel the operation.

Recalculation: Press **OK** key to pop up the dialogue "Are you sure to change this satellite's position?". Press **OK** key at the Yes button to recalculation.

5. Limit Setup: Press **OK** key to pop up the **Limit Setup** window.

Limit Setup: Press ⤳ ⤴ keys to switch among Disable Limit, East Limit and West Limit.

Limit Setup: Move cursor to the Limit Setup button. You can press ⤳ key to turn west , or press ⤴ key to turn east.

**Go to Reference:** Press **OK** key to go to reference. If you select Disable Limit in the above Limit Setup item, this button will turn grey.

6. If select USALS, Delete All item will turn grey.

Local Longitude, Local Latitude: Press ⤳ ⤴ keys to switch between West and East, or press ⤳ ⤴ keys to switch between North and South. Press **OK** key to enter into the editing mode. Use **numeric keys (0-9)** to input the longitude or latitude, press **MENU** key or **EXIT** key to exit. The range of the longitude is from 0 to 180, while the range of the latitude is from 0 to 90. If the inputted value is not in this range, system will pop up a dialogue "Out of Range" when exit from this window. You can press **OK** key to close this dialogue.
7. Motor Setting: Press **OK** key to enter into the **Motor setting** window.

Satellite, Transponder: Press ⤳ ⤴ keys to select satellite or transponder, or press **OK** key to pop up the drop-down list and select in the list.

2.4 Single Satellite Search

1. Satellite : Press ⤳ ⤴ keys to select the satellite in circle. Or press **OK** key to pop up the drop-down list, then select the desired satellite in the list and press **OK** key to confirm.

2. FTA Only: Press ⤳ ⤴ keys to select between Yes and No.

3. Scan Channel: Press ⤳ ⤴ keys to select among TV+Radio, TV Channel, Radio.

4. Network Search: Select between No and Yes. This item turns grey when Auto Scan is selected in the following Scan mode item.

5. Scan Mode: Press ⤸ ⤹ keys to select between Auto Scan and Preset Scan. Auto Scan is Blind scan, while Preset Scan is to search the preset frequencies.

6. Search: Press **OK** key to start searching.

2.5 Multi Satellite Search

From the **Multi Satellite Search** window, you can search several satellites at the one time.

1. Satellite: All selected satellites in the satellite list window are displayed on the down part. You can press ⤸ ⤹ keys to switch among them.

2. FTA Only: Press ⤸ ⤹ keys to select between Yes and No.

3. Scan Channel: Press ⤸ ⤹ keys to select among TV+Radio, TV Channel, Radio.

4. Network Search: Select between No and Yes. This item turns grey when Auto Scan is selected in the following Scan mode item.

5. Scan Mode: Press ⤸ ⤹ keys to select between Auto Scan and Preset Scan. Auto Scan is Blind scan, while Preset Scan is to search the preset frequencies.

**6. Search:** Press **OK** key to start searching.
2.6 TP List

1. Press **PR+,PR-** keys to select the proper satellite.

2. Press **red** colour key to pop up the **Edit TP** window.

**Frequency, Symbol rate:** Press ⤸ ⤹ keys to add or reduce by step one. Or press **numeric keys (0-9)** to input the desired value. The range of the frequency is 3000-13450, while the range of the symbol rate is 1000~45000. The inputted value is beyond this range, the value will return to the origin value.

**Polarity:** Press ⤸ ⤹ keys to switch between Vertical and Horizontal.
3. Press **green** colour key to pop up the **Add TP** window. Since the same operation as the above **Edit TP** window, here we don't explain any more.
4. Press **yellow** colour key to pop up dialogue " Are you sure to delete?". Press **OK** key at the Yes button to delete the selected TP, or press **EXIT** key to cancel the operation.
5. Press **blue** colour key to pop up the **TP Search** window.

FTA only, Scan Channel, Network Search: Press ⊿ ⊾ keys to select the proper option.

Press **OK** key at the OK button to start searching.

3. System Setup

1. Press **OK** key or ⊾ key to move the cursor to the right menu.

2. Press **PR+, PR-** keys to move the cursor up or down.

3. Press **EXIT** key or ⊿ key to move the focus to the left menu.

**3.1 Language**

1. Press **OK** key to enter into the **Language** window. Press ⊿ ⊾ keys to select the language in circle, while press **PR+, PR-** keys to move the cursor up or down in circle.

2. Press **MENU** key or **EXIT** key to save and exit.

3. The types of the language, pleaser refer to the configuration of the customer.
MENU INFORMATION

3.2 TV

Press **PR+, PR-** key to move the cursor up or down, while press ⤄ ⤅ keys to change the setting and the setting will take effect immediately.

1. Display Mode: Select among Auto,PAL, PAL-M, PAL-N, NTSC.

2. Aspect Mode: Select among 4:3LetterBox, 4:3PanScan, 16:9.

3. Video Output: Select between RGB and CVBS.

4.RF System: Select among PAL,PAL- M,PAL-N,NTSC and Auto.

5.RF Channel:PAL:21-69,NTSC:14-83.

6.DV-OUT: Select among 480P/576P,720P,1080i and 480i/576i

3.3 Local Time Setting

1. Summer Time: Select between ON and OFF. "OFF" delegates the normal time. If select ON, time will add one hour.

2. GMT Offset: When select "ON" in GMT Usage item, system will get the date and time information from the screen automatically. Date and Time two items will turn grey. Select the proper option in the GMT Offset item. The default setting is GMT ON.

3.Date, Time: When select "OFF" in GMT Usage, Date and Time two items take effect, while GMT Usage turns grey. Use numeric keys to input the desired value.5. After setting, press **MENU** key or **EXIT** key to exit and save. If the value is invalid, system will inform "Invalid input! Continue to edit?". Press **OK** key at the Yes button to continue the modification, or press **OK** key at the No button to exit without saving.
